Dentistry Newsletter Aug 22 VOL. **1**

---

Whether you are looking to expand your treatment options to gain a clinical advantage, strengthen your team to provide impeccable patient care, or simply seeking to broaden your knowledge, our team at **Dontia Education** is committed to helping you accelerate your professional growth!

With the bulk of pandemic restrictions lifted, we have been able to restart our in-person programmes and expand our suite of offerings, enabling you to keep your skills sharp and grow your practice as a dental professional.

We are committed to helping dentists **grow**.

In the past month, we've also been engaging some of you more closely through smaller group meetups, to better understand your unique needs and challenges. Thank you for your continued views and feedback – these are of great importance as they help us to continually refine our offerings and improve our level of support.

Do feel free to reach out to us at [education@dontiaalliance.com](mailto:education@dontiaalliance.com) or WhatsApp us at **6906 8688** with any queries or comments!

# Young Clinician Series

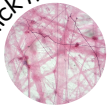

## Upcoming Events

AUG - OCT 22

Lectures for budding clinicians (within 10 years post-graduation) who are keen to further develop their skills progressively and learn other practical aspects to become an outstanding clinician.

click me

### Soft Tissue Management in Restorative Dentistry

25 THU  
AUG

6.30pm - 8.30pm  
*Register from 5 Aug*

The lecture covers the various approaches to help ensure a dry operating field during restorative work, and different techniques involved in soft tissue harvesting and grafting around teeth and implants to improve final restorative outcomes.

click me

### Oral Appliances

26 THU  
OCT

6.30pm - 8.30pm  
*Register from 7 Oct*

The lecture covers concepts of dental sleep medicine, pathophysiology of Obstructive Sleep Apnea (OSA), and the role of dentistry in the management of OSA as part of a multidisciplinary approach to patient care.

# GLOBAL NOVAS SERIES

Lectures for experienced clinicians (more than 10 years post-graduation) who are keen to further advance their skills and explore practice management knowledge.

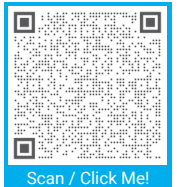

Speaker

**Dr. Wong Keng Mun**

Dental Specialist in Prosthodontics

## Upcoming Events

**11** THU  
AUG **Treating Worn Dentition**  
6.30pm - 8.30pm

The lecture will discuss the various ways of treating patients with worn dentition, as well as how to identify the patterns and behaviours that lead to wear. Associated diagnoses, treatment plans and management of severe wear will also be shared, with the objective of increasing predictability and longevity of the solutions.

**13** THU  
OCT **Immediate Implant & Same Day Teeth in Clinical Practice**  
6.30pm - 8.30pm

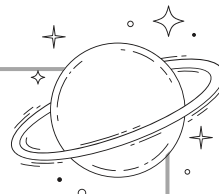

The lecture will cover treatment planning and specific protocols to maximize long-term success, with an emphasis on initial diagnosis, surgery, and prosthetics that will streamline procedures valuable to the patient.

### Available Lectures

Fee: Complimentary

- ✓ Treating Worn Dentition
- ✓ Immediate Implant & Same Day Teeth in Clinical Practice
- ✓ Treating Terminal Dentition & Total Edentulism with Implants
- ✓ Airway Management in Restorative Dentistry
- ✓ Practice Management: The Business Side of Dentistry
